SYSTRA

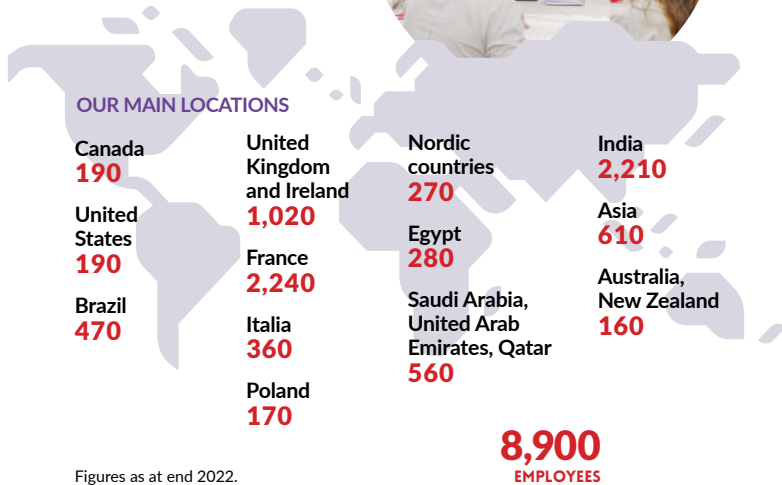

Being a Signature Team means supporting our clients over time, with technical, operational and environmental challenges, and meeting the highest ethical and safety standards. Sustaining this trusted relationship is what drives us every day.

Our mission

For more than 65 years, SYSTRA has been developing solutions for safe, sustainable transport. The Group has set itself the mission of connecting people and bridging the distance between regions in the 80 countries where it operates. By making travel smoother, the infrastructure designed by our teams is bringing communities together, promoting social inclusion, and facilitating access to employment, healthcare, education and leisure.

A WORLD OF EXPERTISE AND COMMITMENT

SYSTRA's connected teams are sharing their expertise with clients all over the world.

OUR CONTRIBUTION TO THE UNITED NATIONS SUSTAINABLE DEVELOPMENT GOALS

Figures as at end 2022.

ENVIRONMENT

As a transport and mobility engineering company, we have a crucial role to play in preserving the environment

Saudi Arabia
SYSTRA has been selected to carry out the design studies for the AIUla tram network, which will serve a protected area. [1]

Egypt
Inauguration of the first stage of line 3 Phase 3 of the Cairo Metro, which is helping to ease traffic in the Egyptian capital.

France
The Téléo urban cable car in Toulouse, which preserves the natural spaces it travels over, has been inaugurated. [2]

SIGNATURE

Signature de référence pour les solutions de transport, nous accompagnons des projets emblématiques

Mauritius
Construction of the A1-M1 highway bridge designed by our teams has begun.

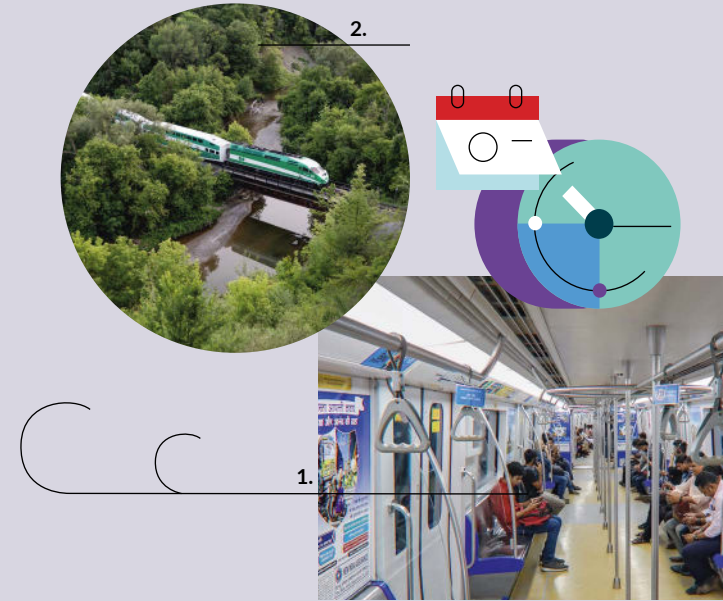

United Kingdom
SYSTRA and Mott MacDonald have been reappointed for the detailed design of lots N1 and N2 of the High Speed 2 project. [1]

France
SYSTRA wins a new 10-year contract for the project management assistance for operation and maintenance of the Grand Paris Express.

Europe
We are participating in the LGV Rail Baltica project, which will link the three Baltic states (Estonia, Latvia, and Lithuania).

United States
SYSTRA is joining the Penn Station Access project in New York. [2]

Australia
A fourth certification task independently carried out by SYSTRA for the Sydney Metro.

LONG TERM

We cultivate long-term relationships of trust with our clients

India
Three new contracts were won in 2022 for work on the Mumbai Metro, which SYSTRA has been supporting since 2007. [1]

Brazil
The motorway concession holder CCR RioSP, our clients for over 15 years, has entrusted us with new assignments.

Canada
The SYSTRA, Mace and Comtech consortium has been awarded the project management for the GO Expansion programme in Ontario. [2]

BOLD LEADERSHIP

We are applying all our skills to profoundly transform mobility

United States
It is SYSTRA which will conduct the implementation studies for the alignment of California's future high-speed line.

Europe
24 kilometres of the Brenner Base Tunnel have been drilled underneath the border between Austria and Italy. [1]

Egypt
Contract for a consultancy assignment for the new high-speed line linking the Red Sea to the Mediterranean.

Asia
The Group will ensure the independent certification of the rail link between Singapore and Malaysia. [2]
