SYSTRA cements growth in the North of England with Manchester office move

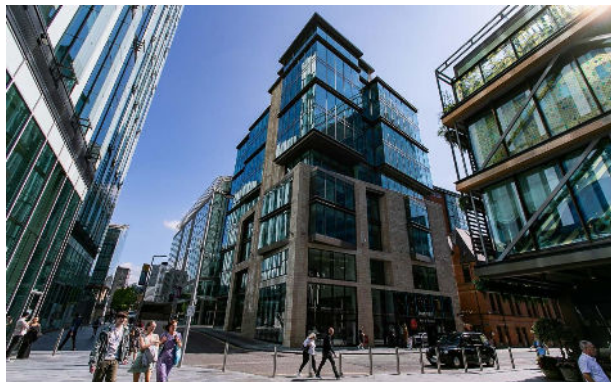

Global transport and infrastructure engineering and consultancy business SYSTRA continues its growth in the UK with occupancy of a new office space in the heart of the Spinningfields district, Manchester.

SYSTRA's growing Manchester team are working on projects across the business from transport planning and behavioural change to infrastructure engineering and specialist climate and environmental services. The new office space provides a fantastic working space for SYSTRA colleagues, and supports its growth ambition in the North of England.

The layout of the new 5,880 sq ft modern office space has been shaped by the requirements of staff, and is largely open plan with plenty creative space to support hybrid working and offers much needed facilities for staff cycling to work.

Nick Salt, CEO SYSTRA said:

"The new office space in Manchester underpins our commitment to providing a flexible working approach for colleagues which incorporates office environments that inspire collaboration and in-person teamwork. The office space is full of natural light with fantastic facilities including bike storage, showers, space dedicated to breakout and wellbeing, and is located in a vibrant part of the city with good access to public transport and an incredible array of local amenities."

SYSTRA Manchester has relocated to: 5th Floor, 4 Hardman Street, Manchester M3 3HF

'Place to Bee', inside SYSTRA's new office, 5th Floor, 4 Hardman Street, Manchester M3 3HF

ABOUT SYSTRA

SYSTRA Ltd is a UK & Ireland consulting and engineering firm, and a world leader in mobility and mass transit. We deliver planning and development consultancy, engineering design, project management, and specialist technical services, that enables the safe and efficient movement of people and goods.

Notes to Editor:

1. SYSTRA's Manchester based staff are working on projects including the Transpennine Rail Upgrade, HS2 Old Oak Common, HS2 MWCC and the Ebbw Vale rail upgrade. Our Manchester team worked on the Commonwealth Games 2022 and Bradford Clean Air Zone.
2. In the UK and Ireland SYSTRA provides Transport Planning Consultancy and Rail and Urban Transport engineering services. With over 800 colleagues, we work with our clients to think through complex issues concerning the location and movement of people, goods and services – as well as helping them maximise the potential of their own businesses. We have been providing Transport Consultancy services in the UK for over 50 years and have an excellent reputation for the provision of high quality, robust and independent advice to our clients. SYSTRA is a UK registered subsidiary of SYSTRA Group which has over 7,500 employees worldwide.
