

SYSTRA UK & Ireland appoints James Easty as Market Director for Energy

An experienced project manager and market leader in the energy sector, James Easty brings a wealth of experience to help SYSTRA grow its presence.

SYSTRA is pleased to announce the appointment of James Easty as Market Director for Energy in the UK & Ireland to help develop and deliver new opportunities in the sector.

An accomplished project manager, James brings a wealth of experience in delivering complex energy sector projects. Throughout his career, he has led energy projects in the defence, security, hydrogen and nuclear industries, and his expertise will be pivotal in driving growth for SYSTRA in the market.

As part of the Business Development team at SYSTRA Ltd, James will work closely with the other market directors – Andrew Dugdale (conventional rail, highways and mass transit), Joe Botterill (high speed rail), and Shirel Stedman (water and environment). Together, they are leading a collaborative approach to delivering innovative, sustainable transport and infrastructure solutions to clients.

Mike Muldoon, Business Development Director at SYSTRA, said: “We are excited to welcome James to the team and look forward to his leadership in this key role. James has an impressive track record across the energy sector, and he joins us at a pivotal time as we consolidate our diverse skillset and experience in planning, designing, and delivering complex projects in highly regulated environments.”

James Easty, Market Director for Energy at SYSTRA, added: “I am thrilled to join SYSTRA to help develop and position our service offer in this exciting and fast-paced sector. The transition from fossil fuels towards net zero requires new ideas and imaginative solutions, and at SYSTRA, I am proud to be part of this exciting and necessary shift.

“There is an incredible amount of talent across the business from planning and feasibility work to detailed design, engineering and delivery. I am confident that we will be supporting many more clients deliver their energy projects as well as guide them through their transition to net zero.”

SYSTRA offers project development and infrastructure design expertise across the energy sector – providing efficient, integrated and sustainable solutions for renewables, energy recovery, and hydrogen infrastructure schemes.
