SYSTRA appoints Romain Pison as Director of Decarbonisation

To support our continued growth and our ambitious sustainability mission, decarbonisation expert Romain Pison has joined SYSTRA's UK & Ireland Consultancy division.

Romain Pison joins SYSTRA as Director of Decarbonisation and will consolidate and expand SYSTRA's existing comprehensive offer supporting public and private sector clients in achieving their Net Zero ambitions. Romain is an award-winning transport director with 25 years of experience designing, leading, and implementing complex, multi-million-pound transport projects and green policies across the world. Romain is leading SYSTRA's market growth in ESG consulting and advisory services, focusing on infrastructure, supply chain, and nature-based solutions. He joins SYSTRA from sustainability software company Wiia which he cofounded in 2020 and was Green Infrastructure specialist with the World Bank from 2013.

Sébastien Dupont, Managing Director Consultancy, SYSTRA, said, "We are delighted to welcome Romain to our growing team in the UK & Ireland. As well as the passion he brings to the challenges of creating a liveable net zero world, Romain also brings an excellent track record in building strong public-private partnerships and identifying key opportunities for digital transformation that will complement our already strong decarbonisation service offer."

On joining SYSTRA, Romain Pison said, "I am thrilled to join the team at SYSTRA as they push further their ambitious program to drive decarbonisation in infrastructure and across the built environment. I am passionate about the possibilities of sustainable technology and the solutions it can provide to decarbonise our transport and energy systems. SYSTRA is a world-leader in this sector, and I am excited to be part of a team that will be working to make a real difference. I believe that SYSTRA's wealth of experience, their advanced expertise, and the enthusiasm of their experts across the world, provides the perfect platform to make huge strides towards decarbonising our clients' assets and operations. I'm looking forward to using my skills and experience to contribute to SYSTRA consultancy's ambition and to be part of this incredible journey with our clients."

ABOUT SYSTRA

SYSTRA Ltd is a UK & Ireland consulting and engineering business, and a world leader in mobility and mass transit. We deliver planning and development consultancy, engineering design, project management, and specialist technical services, that enables the safe and efficient movement of people and goods.

Notes to Editor:

1. Sébastien Dupont and Romain Pison are both available for interview or comment.
2. In the UK & Ireland, SYSTRA provides Transport Planning Consultancy and Rail and Urban Transport engineering services. With nearly 1000 colleagues, we work with our clients to think through complex issues concerning the location and movement of people, goods and services – as well as helping them maximise the potential of their own businesses. We have been providing Transport Consultancy services in the UK for over 50 years and have an excellent reputation for the provision of high quality, robust and independent advice to our clients. SYSTRA is a UK registered subsidiary of SYSTRA Group which has over 8,000 employees worldwide.
3. In 2019, SYSTRA doubled the size of its UK & Ireland operations through the acquisition of TSP Projects, a multidisciplinary engineering firm formed in 1987 with a rich heritage in rail. The combined company provides clients with a complete end-to-end service spanning every aspect of rail projects, as well as specialist understanding of mobility and complex infrastructure. We deliver expertise across the full project lifecycle, from strategic advisory and design to systems integration, programme/construction management, testing & commissioning, and asset management. This expertise will be delivered through a significantly expanded UK footprint, providing clients with a highly localised service.
4. For more information on forthcoming announcements visit our web site www.systra.co.uk
