

SYSTRA relocates in Glasgow signalling strong growth across the UK

Global sustainable transport and infrastructure business SYSTRA has relocated its Glasgow office as part of its long-term commitment to Scotland and in response to strong growth across the UK.

SYSTRA has moved its Glasgow office to Bothwell Street in the city centre, driven by exceptional local growth and a commitment to attracting top talent in the west of Scotland. As a leading specialist in transport planning, engineering and infrastructure, SYSTRA continues to deliver solutions to address complex client challenges in the city and beyond.

The 30-strong Glasgow based team advises many national and local organisations, including Transport Scotland, Strathclyde Partnership for Transport (SPT), NHS Scotland; local authorities; energy, EV and solar charging companies; and housing developers. The team in Glasgow is also working on projects across the rest of the UK and internationally, including in Ireland and the Middle East.

Seb Dupont, Managing Director of Consultancy at SYSTRA, added: "Glasgow is an exciting city and we are immensely proud of our presence here. Our new vibrant office demonstrates our ambition to be the specialist team of choice for transport, energy and infrastructure services in Scotland. The Bothwell Street location is within striking distance of Central Station and Queen Street Station making it highly accessible by train, bike and bus for our colleagues, clients and partners.

"We are excited to expand our portfolio of work in Glasgow and across Scotland while welcoming new talent to the business. Our colleagues in Glasgow will continue to support our clients on delivering solutions to complex projects in the UK, Ireland and throughout the world."

SYSTRA's new Glasgow office is located at S2.1, 25 Bothwell Street, Glasgow, G2 6NL. The historic location, nestled within Glasgow's iconic 'grid layout', dates back to the late 1700s – a design so influential that it inspired the street plans of major American cities including New York and Philadelphia.

About SYSTRA

PRESS RELEASE

24th March 2025

SYSTRA in the UK and Ireland leads the delivery of sustainable infrastructure and environments through specialist engineering and consultancy services.

A world-leader in mobility and mass transit, we deliver planning and development consultancy, engineering design, project management, and specialist technical services, that enable the safe and efficient movement of people, goods and essential services.

With more than 1,000 employees throughout the UK & Ireland, and nearly 11,000 around the world, our shared mission is to help create and connect liveable cities and neighbourhoods, bringing people together and facilitating their access to employment, healthcare, education, and leisure.
